

PORSCHE

The Macan

Price list
(edition: 08/2016)

Congratulations.

The dream of owning a Porsche goes back as far as the brand itself. Perhaps that's because there is one thing in the development of our sports cars that will never be entertained: compromise. It's the only way in which cars beyond compare can be created. A bold claim maybe, but our Porsche developers in Weissach wouldn't settle for anything less.

And the best thing about dreams? They can come true. Today, you are one step closer to one of your goals – your dream car.

You've been to your Porsche Centre and we're certain that the car of your dreams has made its first yet lasting impressions. Now all that remains for you to do is to decide on the colour, equipment and any additional personalisation packages that you would like to order. This price list will help you to do just that and show you exactly what's possible. Turn a Macan into what it was intended to be: your Macan.

Would you like to make your Macan even more individual? Porsche Exclusive offers a wide range of styling options. For your convenience, these products are identified with 'Exclusive' in the 'Order no.' columns within this price list. Of course, we are always happy to answer your questions and would be delighted to give you any further information that you might need.

By the way, did you know that the Porsche Car Configurator lets you see

a virtual 3D model of the car that you've personally configured even before you place your order? Please visit www.porsche.co.uk for more information.

Standard specification.

Typically Porsche:
an outstanding starting position.

A Porsche impresses with performance and design, and that's just the factory configuration. On the following pages, you

will discover everything you need to know about your model's standard specification and which variations are available to select at no extra cost. And everything else? That's down to you.

Standard specification: Macan model range.

Engine

Options.

**There's nothing more to add.
Except some ideas of your own.**

No two people are identical. Why should it be any different for a Porsche? So style your Porsche the way you envisaged. With our range of options, you can go

beyond the standard specification and personalise your Porsche to your own preference.

After all, a Porsche is a symbol of freedom – and that includes creative freedom.

Exclusive.

**Porsche Exclusive.
100% Porsche. 100% you.**

You can have your Porsche 'tailor-made' even before it leaves the factory. Porsche Exclusive is the ultimate in personalisation. Tell us your own ideas and we will do everything we can to make them a reality –

provided they are technically feasible and don't compromise quality. As always, our overriding principle is that your Porsche should be uniquely handcrafted to your taste. With composure and meticulous care, inspiration and a passion for detail that sees the use of exquisite materials, we create a

product through dedication and finesse. A Porsche like no other: yours.

Either your Porsche Centre or the Customer Centre in Zuffenhausen (tel. +49 711 911-25977, e-mail customercenter-exclusive@porsche.de) will be happy to answer any questions

about Porsche Exclusive that you may have. At www.porsche.com/exclusive you will also find further information.

Please note that delivery times may be extended for certain Porsche Exclusive equipment.

Lights and vision	Bi-Xenon main headlights including Porsche Dynamic Light System (PDLS) Projector-type Bi-Xenon main headlights with static and dynamic cornering lights, headlight cleaning system, automatic and dynamic range control and four-spot LED daytime running lights. Dynamic cornering lights: main headlights that automatically swivel towards the inside of a bend. Swivel angle depends on steering angle and cornering speed. The static cornering light activates the auxiliary headlights to widen the illumination of tight bends, e.g. at turns. The speed-sensitive headlight range control logic adjusts the range and aperture contour of the dipped beams at higher speeds (e.g. on the motorway) to illuminate the road even further ahead. The adverse weather function is able to dim the upper light cone in order to reduce the effect of reflection phenomena in poor visibility conditions (e.g. fog) and thus the risk of the driver being dazzled	8BE	£1,061.00 £884.17	○	○	○	●	●

Options: interior.

Piano lacquer

Piano lacquer is a particularly exquisite surface coating characterised by its robust high-gloss finish.

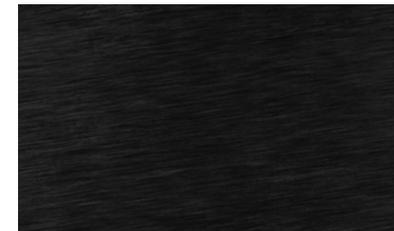

Leather

Leather is a traditional natural material – a true classic. Items made of leather are both timeless and hard-wearing.

Brushed aluminium

Brushed aluminium sets clear accents and lends the interior a sporty minimalist look.

Brushed aluminium in black¹⁾

Brushed aluminium in black accentuates the interior theme of sporty contrasts.

Alcantara®

This high-quality material is particularly easy to care for and appeals with its customary tactile feel.

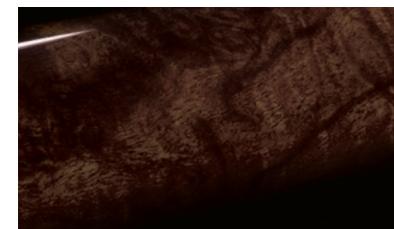

Carbon

Carbon is a light yet highly durable material used extensively in motorsport. Its sporty look is the ideal complement to the car's race-bred engineering.

Limed oak²⁾

Oak is a timeless genuine wood characterised by its natural-looking grain, which is brought to the fore by the effects of the 'liming' refinement process.

Dark walnut²⁾

The fine grain of this classic, high-quality dark wood radiates sheer elegance.

¹⁾ Only available for Macan GTS.

²⁾ Since wood is a natural product, there may be variations in colour and grain.

Macan factory collection.

Come and collect your Porsche in Stuttgart-Zuffenhausen or Leipzig and be the one to take it to its rightful place: on the road.

Before this, we invite you behind the scenes of the Porsche production process. As part of a guided factory tour, you will see how much passion and precision goes into everything we do. You can then take time to reflect on your experience over a leisurely lunch and look forward to the high point of the day: taking delivery of your Porsche.

Our specialists will take their time to explain everything about your new car in as much detail as you wish.

Stuttgart-Zuffenhausen is steeped in tradition and history. Here, you can visit the Porsche Museum to experience and learn about every aspect of the Porsche brand, with legendary models from a sports car history spanning over 60 years.

Or, if you would prefer your factory collection to be rather more intensive, visit our production location in Leipzig. Your first driving experience will be a test drive in a Porsche model comparable

to the one you purchased and under the expert supervision of one of our instructors. Hone your skills on-road on the racetrack or on our very own off-road track in a Porsche off-road vehicle.

¹⁾ The factory collection in Leipzig option is a non-binding limited offer. For the latest information on availability, please consult your Porsche Centre.

Porsche Tequipment genuine accessories available from your Porsche Centre.

Below and on the next page you will find a small selection of Porsche accessories from the Tequipment Macan catalogue

for the Macan model range. Please see the catalogue for a wider selection of original Porsche accessories for your

Macan model. The prices specified are exclusive of fitting (if applicable). Additional costs may apply for painting

and installation carried out by your Porsche Centre.

Product	Description	Price EUR Incl. XX% VAT Excl. XX% VAT	
Roof box 520¹⁾	Lockable plastic roof box in black (high-gloss) or platinum look with a capacity of approximately 520 litres and an integrated ski carrier. Can be opened from either side of the vehicle. Dimensions: L 2,180 mm x W 895 mm x H 400 mm	£800.24 £666.67

CO ₂ emissions in g/km	172–167	212–204	164–159

¹⁾ Data determined in accordance with the measurement method required by law (Regulation [EC] 715/2007 as amended). The figures do not refer to an individual vehicle nor do they constitute part of the offer. They are intended solely as a means of comparing different types of vehicle. Fuel consumption calculated for vehicles with standard specification only. Actual consumption and performance may vary with items of optional equipment. A vehicle's fuel consumption and CO₂ emissions depend not only on its efficient use of fuel but also on driving style and other non-technical factors. The latest Porsche models with petrol engine are designed to operate on fuels with an ethanol content of up to 10%. You can obtain further information about individual vehicles from your Porsche Centre.

²⁾ Measurement bandwidth dependent on tyre set used.

³⁾ Valid in the countries listed only.

¹⁾ Standard steel suspension including PASM and ride-height reduction of 15 mm.

Dimensions.

Macan Turbo/Macan Turbo with Performance Package

Note: ground clearance (DIN unladen).
¹⁾ Standard steel suspension.

Porsche recycling and further information.

At Porsche, we have high standards, not least when it comes to quality assurance and the environment. This is clearly demonstrated by our comprehensive recycling concept. Even in the vehicle development phase, we make every effort to comply with worldwide accepted recycling regulations. The result is that our vehicles and their components are designed with recycling and reuse in mind. We are striving constantly to make our vehicles as environmentally friendly as possible.

We aim to explore feasible opportunities to conserve resources and minimise our impact on the environment. We use modular components to make the dismantling of vehicles as uncomplicated as possible in case of reuse, and solutions for separating out materials and then collecting materials of the same type. All the materials in our vehicles are labelled to facilitate future separation and collection with a view to their recycling. The reduction in the wide variety of plastics used makes it easier to exploit these opportunities. Recycled

plastics and renewable raw materials are used where they meet our exacting technical requirements.

Porsche has established a network of take-back and recycling facilities. Only certified dismantling centres are permitted to dismantle our vehicles, thereby ensuring the safe disposal of fluids and pollutants. Of course, this is always carried out in accordance with our detailed dismantling and draining instructions and in conformity with regulations governing end-of-life vehicles. For a long time now, our recycling efforts have concentrated on more than metal materials alone. An increasing proportion of plastics and operating fluids is also being submitted for recycling.

This reduction in waste has benefits not only for the environment but for you, too. These benefits are achieved through the use of selected, long-lasting operating fluids, which are key to reducing the scope of routine maintenance work and the frequency of specified maintenance intervals.

For more information on optional equipment and the Tequipment range of genuine Porsche accessories, please contact your Porsche Centre. Alternatively, you can visit www.porsche.com or call 01805 356-911 or contact us by fax on 01805 356-912 (landlines 14 ct/min; mobiles max. 42 ct/min).

Prices are valid only for orders for new vehicles. The prices stated do not apply to options ordered after your car has entered production. All prices are effective for vehicles produced from 1 September 2016 onwards and are recommended retail prices including VAT and cost of installation but excluding delivery.

Porsche reserves the right to alter specifications, equipment and delivery scopes and times without prior notice. Colours and materials may differ from those illustrated. Errors and omissions excepted.

For information on standard and optional equipment, please consult your Porsche Centre. A fee is usually charged for delivery of the vehicle to the Porsche Centre. This fee is determined by the Porsche Centre from which the vehicle is purchased. For further information, please consult your Porsche Centre.
