Les fiches de données des véhicules Porsche pour interventions de secours ont été rédigées à l'attention des équipes d'intervention ayant reçu une formation spécifique en matière de secours aux personnes se trouvant à bord d'un véhicule accidenté. Elles ne doivent être utilisées que dans cette seule optique.

Elles comportent notamment des informations sur la composition de la carrosserie, des systèmes de sécurité passive et des systèmes annexes de motorisation, en présentant le plus de variantes d'équipements possible.

La société Porsche n'est pas spécialisée dans l'organisation des secours en cas d'accident de la route. Avant toute intervention, les équipes d'intervention devront par conséquent évaluer ces informations et juger, sur la base de leurs connaissances techniques, des stratégies à adopter et des décisions à prendre. Nous recommandons à toutes les équipes d'intervention de pratiquer des exercices d'intervention sur des véhicules représentatifs de la marque Porsche afin de comprendre pleinement ces informations.

Cela vaut notamment pour la reproduction, la modification, l'adaptation, la traduction, la représentation sous forme de microfilm, ainsi que l'enregistrement et/ou la conversion sous forme électronique, y compris des bases de données et des services en ligne.

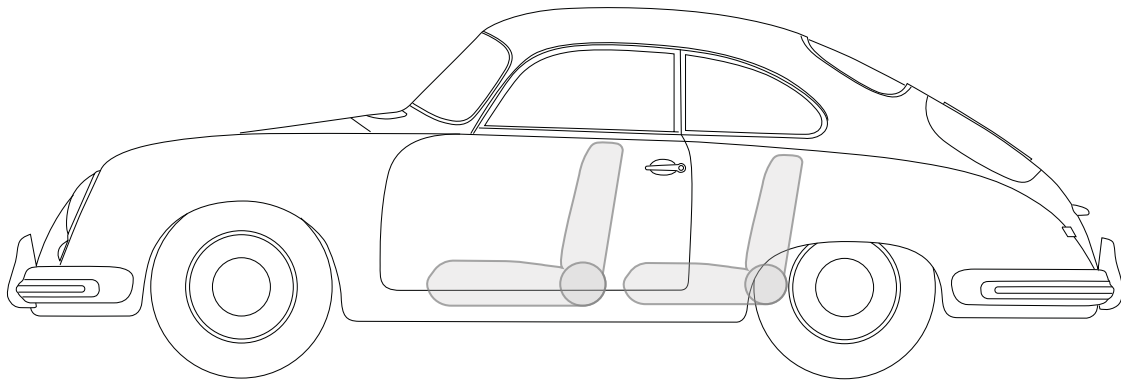

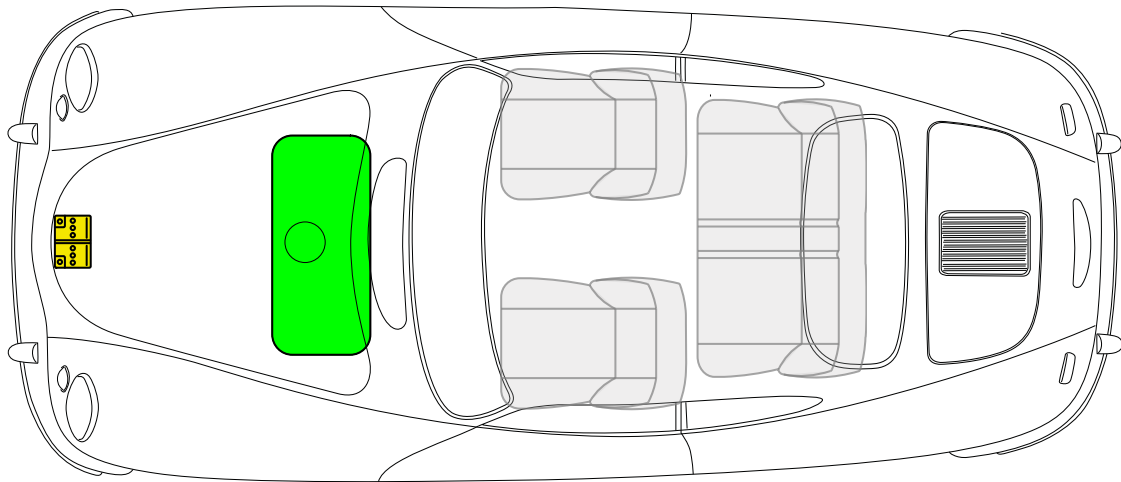

Porsche AG se réserve expressément le droit d'adapter ou de modifier à tout moment le contenu des fiches de données pour interventions de secours. Les informations étaient actuelles au moment de l'élaboration de ce CD. Porsche décline toute obligation d'actualisation, de modification ou de remplacement de ces informations.
