# The sportscar concept – advanced.

## Accessories and retrofit options from Porsche Tequipment

We develop products which are more than accessories. For vehicles which are more than sports cars. And for customers that want more than just standard equipment. Porsche Tequipment is the sportscar concept consistently developed further. Created for the lives of our customers. Developed and tested in Weissach, by the same engineers who design our vehicles. The result: accessories and retrofit products incorporating clever concepts with intelligent solutions. First-class design, maximum convenience for everyday use and Porsche quality – combined. And with guaranteed warranty. For more Sportscar Fascination.

## MORE ENGINEERING SKILL AT PORSCHE TEQUIPMENT.

**The limits of feasibility?  
Are constantly being redefined.**

Our products are developed and tested with the whole vehicle in mind in Weissach – one of the world's most modern development centers. Perfectly tailored to your Porsche and your lifestyle. And by the same Porsche engineers who made your car. Thus, we leave nothing to chance during their development and testing. All our products are trialed under the toughest conditions. From design to approval. From safety to performance. From functionality to resilience.

### 1. Aerodynamics under scrutiny.

Products such as our SportDesign packages and Aerokit have undergone rigorous testing in the wind tunnel. Our high-tech wind tunnel sets new standards. Its fan, measuring eight metres in diameter and engineered with extremely lightweight Carbon Fiber blades, is able to generate wind speeds of up to 186 mph. What's more, the floor surface rolls along underneath the vehicle at the same speed as the wind throughout the aerodynamic evaluation. The result? A headwind that delivers, thanks to perfect design and first-class drag coefficients.

### 2. Extreme testing for wheels and tires.

Porsche high-performance tires are distinguished from other tires in many ways such as their geometry, the rubber compound and the rigorous testing. Driving on the Nurburgring is also part of the test scope. The values observed there are used as input parameters for the subsequent testing of our wheels. Not least the endurance test in the Biaxial Wheel Test (ZWARP) – which simulates the long-term strain associated with extreme driving styles.

### 3. Performance check for transport systems.

Our roof boxes and transport systems are designed for performance, just like a Porsche. Transport systems are actually more complex than many people think. Braking safety, noise levels and fuel consumption are just some of the points that are tested in Weissach. But we're also concerned with ease of operation. Therefore, our roof boxes have a locking system on both sides. This simplifies both the loading and unloading of the box.

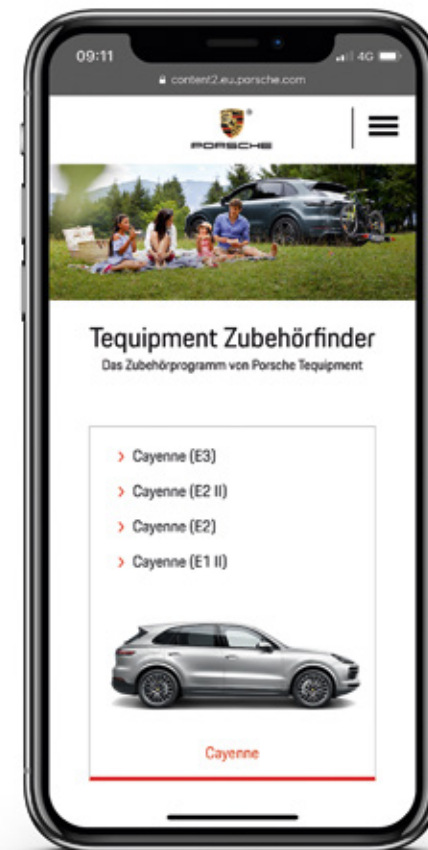

## MORE EQUIPMENT ACCESSORIES ONLINE.

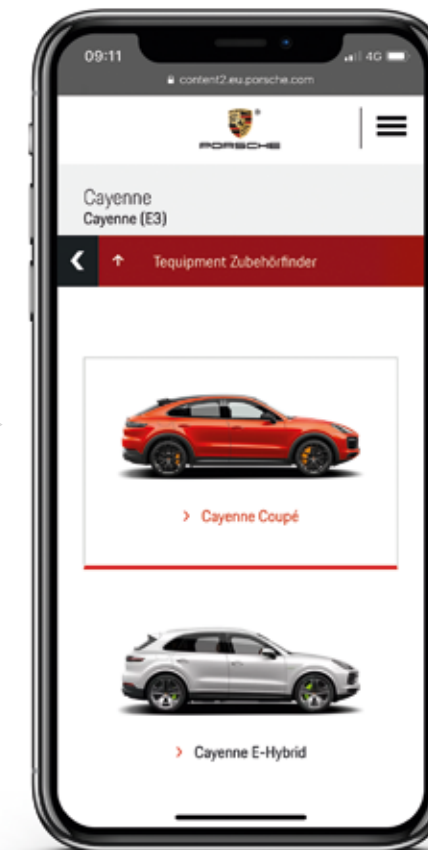

**More possibilities.  
Also discoverable in the digital world.**

Whatever you have planned, your Porsche is an ideal fit for your lifestyle. And with every product from Porsche Tequipment, you can still make further refinements and improvements. Find inspiration in our Tequipment accessories finder. Any time, anywhere.

Why wait? Take an instant, detailed look at your new Tequipment accessory online. Visit us at [www.porscheusa.com/finder](http://www.porscheusa.com/finder) or just scan the QR code to quickly and conveniently learn about all the products and prices for your model.

718.

Those who want to get ahead in life need traction.

Pure performance starts from the ground up: at the wheels. After all, they are what ultimately transmit the power of your sports car to the road. And guarantee power output, driving pleasure and, of course, an unmistakable look.

- 18 19/20-inch Carrera wheel

# TAYCAN.

The foundations for every great performance are always built from the ground up.

Performance doesn't end with the wheels. On the contrary, that's where it begins. Because transmission of torque primarily involves transmitting impetus. Quickly, directly and without compromising. And delivering performance – with every hundredth of a second. In every situation.

# More 718

Built for an uncompromising desire for freedom. For the sport of it. And for you. Add your own chapter to the story. And make your 718 just as sporty as your lifestyle.

More inspiration? Scan the QR code or visit [www.porscheusa.com/teq-718](http://www.porscheusa.com/teq-718) to view all our products for your 718 online.

Not all products are available for every model. Find all options for your vehicle in the Tequipment accessories finder.

# SPORTDESIGN PACKAGE.

Those who go their own way also leave the well-trodden paths when it comes to design.

It's your life. Your adventure. Your stories. For you, the routes of others do not count. You define your own destinations. So it's no wonder that you only listen to one thing when redesigning your 718: your own imagination.

Create an even more dynamic appearance with our SportDesign packages. The uniquely designed front and rear fascias, which can be optionally painted in the exterior color or partially in High Gloss Black, impressively emphasize the sporty side of your 718.

Visit [www.porscheusa.com/teq-718](http://www.porscheusa.com/teq-718) to view all our products online.

# More Cayenne

Designed for adventure. A pioneer for all those who enjoy leaving the beaten track. Together with you, the Cayenne pushes the boundaries of everyday driving – with the help of accessories from Porsche Tequipment.

More inspiration? Scan the QR code or visit [www.porscheusa.com/teq-cayenne](http://www.porscheusa.com/teq-cayenne) to view all our products for your Cayenne online.

Not all products are available for every model. Find all options for your vehicle in the Tequipment accessories finder.

## SPORTDESIGN PACKAGE.

**Total freedom includes creative freedom.**

Your life, your decisions. When it comes to configuring your sports car, you should only go one way – your own.

### **SportDesign front fascia**

Clearly defined. Exactly as you would expect of a genuine performance athlete. The distinctively designed front fascia included in the SportDesign package is painted in the exterior color and has an air intake grille in Matte Black. Its striking appearance is impressively enhanced by wheel arch extensions, side skirts and the Cayenne Turbo rear section.

### **SportDesign package**

Sporting challenges? The Cayenne accepts. Even when they involve an extremely dynamic appearance. The SportDesign package creates an unmistakable look and an even more imposing overall impression. It comprises a distinctive front fascia painted in the exterior color with additional air intakes, a distinctive rear fascia with a paint finish, side skirts and prominent wheel arch extensions.

Restricted off-road use.

Visit [www.porscheusa.com/teq-cayenne](http://www.porscheusa.com/teq-cayenne) to view all our products online.

**SportDesign Package in Carbon Fiber**

The material derived directly from motorsport. Your inspiration. With the Carbon Design package, you can create a racing look – instantly. Accents are set with the air intake grilles painted in High Gloss Black. The upper trims of the exterior mirrors as well as the airblades on the front fascia finished in carbon, and the diffuser in carbon do more than hint at the car's racetrack heritage.

Visit [www.porscheusa.com/teq-cayenne](http://www.porscheusa.com/teq-cayenne) to view all our products online.

① LED headlights in Black with Matrix Design including Porsche Dynamic Light System Plus (PDLS Plus)

② Wheel arch extensions painted

③ Exterior mirrors painted in High Gloss Black

④ 22-inch Sport Classic wheels with summer tires

⑤ Tinted LED taillights and light strip

⑥ Model designation painted in Matte Black

⑦ Sport Tailpipes in Black

⑧ Optional: Sport Tailpipes in Silver

**Other Tequipment options not shown:**

- B Exclusive Design gear selector**
- C Center console armrest with Porsche Crest**

## INTERIOR.

**The interior.**  
**Or should we say dream interior?**

Live your dream. Both when choosing your next destination and configuring your ideal vehicle interior. After all, your Cayenne not only represents your personal freedom, but also your creative freedom.

**The following interior packages are available:**

- 1 Carbon Fiber
- 2 Anthracite Chestnut<sup>1)</sup>

Visit [www.porscheusa.com/teq-cayenne](http://www.porscheusa.com/teq-cayenne) to view all our products online.

<sup>1)</sup> Since wood is a natural product, there may be variations in color and grain.

# General accessories

Standing still? Not an option. After all, there is still much to discover and experience. And countless adventures are waiting for you.

Our accessories will help you reach your destinations – no compromise.

CAR COVERS.

More Porsche diversity.  
Even when you're not driving.

A pit stop can also be optimally combined with performance. With custom-fit Porsche Tequipment car covers, for example. Whether indoor or outdoor, they provide ideal protection against dust, sunlight, weathering and dirt. And also have an eye-catching appearance. You can choose from various designs, depending on your model. Our way of showing that downtime certainly doesn't have to be boring.

outdoor car cover,  
indoor car cover Endurance Racing Edition,  
indoor car cover 718 Spyder design

# CHILD SEATS.

More butterflies in your stomach.  
Even for the smallest passengers.

Driving in a Porsche is one of the biggest things even for the smallest passengers. Which is why Porsche Tequipment offers specially designed child seats. They meet strict safety standards and have been specially tested and approved for Porsche cars, thereby providing protection and comfort for children up to 12 years of age. The fabrics are breathable, hypoallergenic and easy to clean.

LATCH is a standard system for mounting points in almost all vehicles. This ensures that the child seat is securely fastened in the car. Our i-Size seats fit all car seating positions approved for i-Size. Please check your vehicle manual to see if your car has such approved vehicle seating positions.

### Child seat underlay

To protect the surface of the car seat from dirt and damage, a child seat underlay is available as an option.

Prior to installation, please refer to the child seat operating instructions for your vehicle, where you will find all the important information about the appropriate child seats for your model and the correct positioning of these in your car.

<b>A</b>	
<b>Model:</b>	Porsche Baby Seat i-Size + Flex Base i-Size
<b>Group:</b>	0
<b>Weight:</b>	0 to 28 lbs
<b>Age:</b>	Up to 15 months
<b>Dimensions:</b>	40 to 83 cm

<b>B</b>	
<b>Model:</b>	Porsche Child Seat i-Size
<b>Group:</b>	1
<b>Weight:</b>	19-39 lbs
<b>Age:</b>	9 months to 4 years
<b>Dimensions:</b>	61 to 105 cm

A child seat should only be used on the front passenger seat in conjunction with the child seat preparation available ex-works. When carrying children up to 27 kg, the front passenger air-bag must be deactivated.

### Comfortable covers

High performance at high temperatures? No problem. The lightweight terry cotton absorbs both heat and sweat in equal measure. And handling could not be easier: just pull it over the seat cover and wash it in the washing machine at 60 degrees when soiled.

**Other Tequipment options not shown:**  
Porsche Baby Seat comfortable cover

In High Gloss Black,  
Maximum permissible payload: 75 kg,  
Lockable plastic box,  
can be opened from either side

## TRANSPORT.

**More expansion.  
For your own horizon.**

A hunger for thrills, a desire for adventure or a joy of discovery? No problem. The intelligent transport systems from Porsche Tequipment ensure that you always have the space you need for your equipment wherever you are. Because no matter what you have planned or where the journey will take you, our roof boxes and intelligent systems transport far more than just athleticism.

 Max. payload: 75 kg,  
 Capacity of 480 liters,  
 Can be opened from either side,  
 With accompanying protective cover with 'PORSCHE' logo

## Your bikes have never been transported as dynamically as this before.

Got lots of plans? That's good. After all, your Porsche is a master at combining sporty driving with your other favorite sports – such as road or race cycling. No matter where your next adventure is destined to begin: your Porsche will not only take you there safely, but also your bike, thanks to our accessories.

### Roof transport system

All attachments for various requirements can be fixed to the roof transport system. Two lockable aluminum cross members offer effective anti-theft protection. For more information about the maximum permissible roof load that can vary depending on the vehicle, please refer to your car manual.

### Racing bike carrier

Capacity for up to two racing bike carriers. With quick-clamping device for the front fork and length-adjustable rear wheel mount. Also suitable for bikes with a carbon frame. The front wheel can be optimally stowed in the front wheel holder on the roof transport system or in a bag in the interior.

### Bike carrier

For all standard bikes up to a frame diameter of 100 mm. With an anti-tipping mechanism to hold the bike securely in position. Capacity for up to three bike carriers at a time, weighing maximum 20 kg.

### Rear-mounted bike carrier

Lockable, foldable rear-mounted carrier in Black aluminum for up to two bicycles (maximum weight per bike: 30 kg). Mounts quickly on the towbar system without the need for any tools. Also suitable for electric bikes (2 × 30 kg).

Not all products are available for every model.  
Find all options for your vehicle in the Tequipment accessories finder.

**More flexibility.  
Whatever your plans may be.**

Your Porsche offers plenty of space for the important things in life: personal freedom, for example. How this should be expressed exactly is, of course, entirely down to you. Because whether you need a matching luggage set for your next trip, or would like to have the ability to carry more, the accessories from Porsche Tequipment provide the optimum solution.

Not all products are available for every model.

# PROTECTION.

More scope. Is indispensable, especially for explorers.

Your life is not designed for boredom. Just as well. After all, neither is your Porsche. And our products ensure that everything you transport is optimally protected, so that before, during and after your journey you can always think of what matters most – driving pleasure.

# CAR CARE.

**More sports-car-like quality.  
Even during pit stops.**

Special cars deserve special attention. With its exclusive 'White Edition' car care range, Porsche has therefore developed a program that offers a wide selection of products for protecting and maintaining the interior and exterior of your vehicle.

The 'White Edition' car care products are supplied in a high-quality Rimowa trolley case, providing perfect storage for all the products. The trolley case fits every Porsche model and is sturdy and ultra-light. The foam inlay can be removed if necessary, allowing the trolley case to be used as a high-quality travel accessory.

Also typical of Porsche Tequipment is the unique design of all the bottles. Developed together with the designers from Studio F. A. Porsche, it is timeless and inspired by the shape of the Porsche Crest. Also typical Porsche: the extensive test procedure. Because all our car care products are tested under special conditions in Weissach – just like every Porsche. They meet the highest quality standards.

# AUDIO AND COMMUNICATION.

Top athlete or adventurer – you decide.

Especially if you want to discover unknown territory, you should calmly listen to the inner voice of your Porsche. Because the navigation module for Porsche Communication Management (PCM) will show you the most direct route to your next big adventure. And options such as cruise control and Power steering Plus will provide the necessary calm on the way to your destination.

# E - PERFORMANCE.

Energetically embracing the future.

**Charging Dock**  
The front of the Porsche Charging Dock is made of Black safety glass featuring a silver-colored 'PORSCHE' logo. It allows the Porsche Universal Charger (AC) to be installed on your garage wall, for example. It is suitable for all common industrial electrical outlets. The Charging Dock has a connector for the vehicle plug on both sides. The up-to-7.5 m vehicle cable can be wound into the casing, from which the charger can be removed at any time. Can also be used outside\*. Lockable.

The Porsche Universal Charger (AC) shown in the picture and the optional charging cable are not included. Please contact your authorized Porsche dealer for assembly information.

\* Should not be exposed to heavy rain.

basic wall mount,  
Home Energy Manager,  
charging cable (mode 3), 7.5 m and up to 11 kW

# Winter accessories

Driving a sports car 365 days a year? Of course. A Porsche is an all-year-round athlete. With the appropriate winter accessories and car care products from Porsche Tequipment, it is ideally prepared for the challenges of winter.

## WINTER ACCESSORIES.

**More optimum performances.  
Even at sub-zero temperatures.**

When others switch down a gear, you simply shift up a gear. With a Porsche, this is not a problem. After all, it guarantees maximum performance even at sub-zero temperatures. Just like the accessories from Porsche Tequipment. After all, they are an ideal fit for your Porsche. And the cold winter months.

# Technical data and information

---

Important Limitations of Assistance Systems.

- A Few Important Words About Porsche Driver Assistance Systems ...**
- 1 None of Porsche's Driver Assistance Systems can prevent accidents or loss of control.
  - 2 No Driver Assistance System is ever a substitute for attentive driving. It is the driver's responsibility to be observant and in control of the vehicle at all times.
  - 3 Please see your vehicle's owners' manual for further details about, and important limitations of, each of the specific systems described below.

- ACTIVE LANE KEEP**
- 1 Active Lane Keep may not detect lane markings in certain road, weather, and driving conditions.
  - 2 System is available only in conjunction with active Adaptive Cruise Control (ACC).

- ADAPTIVE CRUISE CONTROL**
- 1 Adaptive Cruise Control should not be used in unfavorable road conditions and poor weather conditions.
  - 2 Adaptive Cruise Control automatically maintains a set speed and a set distance at a speed above approximately 19 mph – 130 mph.

- AUTO EMERGENCY STOP**
- 1 Auto Emergency Stop depends in part on signals from the worldwide Global Positioning Satellite network. The vehicle's electronic system and data connection, and existing wireless satellite technology, must be available and operating properly for the system to function fully.

- PORSCHE DYNAMIC LIGHTING SYSTEM**
- 1 Static cornering lights – At speeds of up to 80 mph static cornering light is switched on when the steering wheel is turned.
  - 2 Dynamic cornering light – Above a speed of around 3 mph, the low beam or high beam headlights are swiveled in the direction of the curve to illuminate the road more clearly, depending on the speed of the vehicle and the extent to which the steering wheel is turned.

- PORSCHE DYNAMIC LIGHTING SYSTEM (PLUS)**
- 1 High Beam Assistant is switched on at between 20 mph and 37 mph.

- HEAD-UP DISPLAY**
- The driver's view of the information in the head-up display may be impaired by the following factors:
- Sunglasses with certain polarizing
  - Wet roads
  - Unfavorable lighting conditions

- PORSCHE INNODRIVE INCLUDING ADAPTIVE CRUISE CONTROL**
- 1 InnoDrive depends in part on signals from the worldwide Global Positioning Satellite network. The vehicle's electronic system and data connection, and existing wireless satellite technology, must be available and operating properly for the system to function fully.
  - 2 Construction zones, traffic flow, and other road system changes are beyond the control of Porsche Cars North America. Complete detailed mapping of lanes, roads, streets, toll roads, tollbooths, highways, road signs, and so forth is impossible. Therefore, you may encounter discrepancies between the mapping and the actual location and conditions you encounter. Always pay careful attention to the road, give precedence to directional signs on the road and not the system, and do not drive while distracted.

- INTERSECTION ASSIST**
- 1 This system detects only other vehicles, but not people, cyclists, or animals, for example.

- LANE CHANGE ASSIST**
- 1 Lane Change Assist operates above a driving speed of approximately 10 mph.
  - 2 Rear Turn Assist – Supports Lane Change Assist only when driving off and on the vehicle side on which the turn signal was actuated. Active at speeds up to approximately 12 mph.

- LANE KEEP ASSIST WITH TRAFFIC SIGN RECOGNITION**
- 1 Lane Keep Assist may not detect lane markers in certain road, weather, or driving conditions. Please see owner's manual for further details and important warnings about limitations of the system.
  - 2 This system depends in part on signals from the worldwide Global Positioning Satellite network. The vehicle's electronic system and data connection, and existing wireless satellite technology, must be available and operating properly for the system to function fully.
  - 3 Traffic Sign Recognition may not always see or understand every sign. It depends upon a clear, unobstructed view of the road ahead, and well-maintained and clean road signs of generally recognized types.
  - 4 Lane Keep Assist may be passive if the vehicle speed is below the activation speed of approximately 40 mph.

- NIGHT VISION ASSIST**
- 1 Night Vision Assist does not prevent accidents. The system may not represent objects as the eye does. It will not detect persons or animals under certain lighting and temperature conditions, and it cannot detect inanimate objects in the road.
  - 2 Night Vision Assist detects persons and animals when it is sufficiently dark and at an ambient temperature below 82°.

- PARKASSIST (FRONT AND REAR) WITH VISUAL AND AUDIBLE WARNING**
- 1 ParkAssist cannot detect sound-absorbing obstacles such as powdery snow, clothing made from fabric, skin or fur; sound-reflecting obstacles such as glass surfaces, flat painted surfaces, very thin obstacles, i.e. thin posts or obstacles above and below the sensors.
  - 2 ParkAssist is activated automatically up to a speed of approximately 10 mph. and when operational readiness is established in the following situations: Reverse gear engaged or distance in front is less than approximately 32 in. or rolling backward is detected.

**REVERSING CAMERA – THE OBJECTS SHOWN BY THE CAMERA APPEAR DISTORTED.**

**THE IMAGE FROM THE REAR VIEW CAMERA DOES NOT SHOW THE ENTIRE AREA BEHIND THE VEHICLE.**

Surround View – The objects shown by the cameras appear distorted. Many of the screen windows do not show the entire area around the vehicle.

- TRAFFIC JAM ASSIST**
- 1 Traffic Jam Assist supports the driver when driving in traffic jam situations or in slow-moving traffic in a speed range below approximately 40 mph.

- WARN AND BRAKE ASSIST (COLLISION AND BRAKE ASSIST)**
- 1 Warn and Brake Assist cannot prevent most collisions, although it may help to reduce their severity.
  - 2 In addition, Warn and Brake Assist may not detect every object in the road.
  - 3 The system may not operate if certain evasive maneuvers are performed by the driver.
  - 4 The system is available as of walking speed and can react to pedestrians or cyclists up to a speed of approximately 53 mph.
  - 5 The function may be restricted or unavailable up to 10 seconds after establishing operational readiness, and other instances.

- WET MODE**
- 1 WET Mode depends on sensors in the front wheel arches. It cannot provide assistance if there is too much water present, if the vehicle is driving too fast, or if the sensors are obstructed by dirt, excessive water or other obstructions.
  - 2 WET Mode cannot detect or prevent aquaplaning.

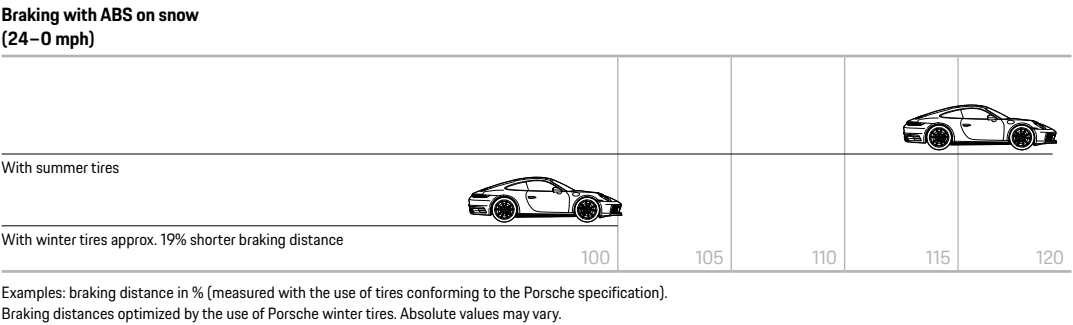

Not all the Driver Assistance Systems described in this brochure are installed or available on every model. Some Driver Assistance Systems are optional at extra cost. Some Driver Assistance Systems require the selection of other systems or options at additional cost. Some Driver Assistance Systems are not available in combination with others. Ask your authorized Porsche dealer for details about the models and systems in which you are interested.

**Note on the use of winter tires**

Summer tires provide optimum performance at ambient temperatures above approx. +7°C. Below this point, the tire compound begins to harden and braking distances are increased. We therefore recommend that you fit winter tires during the colder months of the year so that you can drive your vehicle safe in the knowledge that it will continue to meet our high standards for driving safety, even at low temperatures. All winter tires approved by Porsche are identified by an 'N' designation on the sidewall.

Additional benefits: the tires are noise-optimized. There is also less rolling resistance, which helps reduce fuel consumption.

Tire braking behavior for all models:
