Experience Centre Silverstone

The Porsche Experience Centre

- 4 **The Porsche Experience Centre is situated within Silverstone Circuit – the home of British Motorsport. On the original site of a WRC Rally of Great Britain Special Stage, the Centre overlooks Hangar Straight on the Grand Prix Circuit.**

The main building includes an atrium displaying both current, historic and racing Porsche models, a superb restaurant offering panoramic views of the Porsche Tracks, state-of-the-art meeting and conferencing facilities and an innovative Human Performance Centre.

The Porsche Experience Centre building has been designed to offer an interesting but relaxing environment to spend time in when you're not out exploring the Porsche Tracks. After being welcomed in reception you are free to explore the main atrium which displays both current and classic models from the Porsche range. Our Exclusive Manufaktur space provides further insight into the expansive opportunities available to personalise your vehicle and the Porsche Driver's Selection shop is the perfect place to indulge in some Porsche retail therapy or to pick up a souvenir of your visit.

The Porsche Tracks

The Porsche Tracks have been designed to push both car and driver to the limit and enable drivers to be guided through a variety of different situations in both wet and dry conditions, as well as simulating ice and snow driving with the use of specially constructed surfaces.

The Straights

A safe and controlled environment to fully explore how a Porsche accelerates and stops. It also offers an exciting opportunity to explore various Porsche systems including Launch Control, PCCB and Lane Change Assist.

Low Friction

Specially formulated tarmac creating an ideal environment where oversteer slides can be provoked, corrected and held.

Kick Plate

A moveable metal plate set flush with the road surface designed to be triggered remotely as a car travels over it, thereby generating the effect of a loss of rear wheel traction.

Handling Circuit

Designed to replicate a challenging country road, with varying cambers and blind corners.

Ice Hill

Simulating sheet ice with computer-controlled water jets, this area allows drivers to explore general car control and handling characteristics.

Off-Road

With 45% declines and ascents, rough terrain and unfeasible side slopes designed to challenge even the most focused 4x4s.

The Porsche Experience Fleet

718 Boxster

Pure-bred roadster meets powerful mid-engined sports car. The 718 Boxster models are even more intuitive, powerful and intense than ever.

[Find out more](#)

718 Cayman

Interpreting the mid-engine concept more purposefully, independently and contemporarily than ever before are the 718 Cayman models. Not just in terms of design, but also performance and handling.

[Find out more](#)

911

Instantly recognisable and originally engineered for the racetrack, the rear-engined 911 models combine performance and everyday practicality. Form follows function and tradition meets innovation.

[Find out more](#)

Panamera

The Panamera models have pushed the contradictions to the limit. With sporty dynamics and great efficiency, impressive saloon comfort and typical Porsche design.

[Find out more](#)

Taycan

With powerful performance and exceptional charging capability, thanks to the unique 800-volt architecture, the Taycan delivers an uncompromising experience of ultimate driving enjoyment that is expected of every single Porsche.

[Find out more](#)

Macan

Compact, concentrated and powerful. Practical but never ordinary. The Macan models deliver intense driving pleasure and an intimate relationship with the road whilst boasting plenty of room for luggage, leisure and sport.

[Find out more](#)

Cayenne

Dynamic performance, five doors, variability, comfort. The Cayenne models handle the daily commute as supremely as they do the Corkscrew at Laguna Seca and enjoy the short sprints as much as the longer distances.

Porsche Track Experience

The Porsche Track Experience takes your driving to the next level. Whether you want to get more from track days or to gain your racing licence, the Porsche Track Experience can take you there step by step.

Progressing through the various training levels, your Porsche Driving Consultant will guide you to finely hone your driving skills, from the basics of vehicle control through to applying for your racing licence. The Porsche Experience Centre Silverstone is one of 16 international locations currently available worldwide, all of which have one thing in common: the same high standards.

[†]Porsche Track Experience is designed to be taken in your own Porsche. However, vehicle hire at an additional cost may be possible, subject to availability on selected dates.

> Warm-up £350.00[†]

A half-day on the specially-designed Porsche Tracks to discover the full potential of your Porsche and how to nurture the best from it by honing driving techniques.

> Precision £760.00[†]

A full day of bespoke driver coaching utilising both the Porsche Tracks to fine-tune skill and technique and one of the famous Silverstone Circuits to exploit your new-found knowledge in a higher performance arena.

> Performance £1,250.00†

A two day tailor-made programme using the Porsche Tracks and with extended time on a Silverstone Circuit. Performance is designed to further develop the link between car and driver, maximising safety and driving pleasure.

> Master £POA†

After a consultation to discuss specific aims and objectives, a bespoke coaching plan will be executed over three days using the Porsche Tracks, a Silverstone Circuit and the Millbrook Proving Ground. This combination of venues ensures all facets of performance driving are explored as required, ensuring objectives are achieved.

Cayenne Off-Road

The off-road course at the Porsche Experience Centre has 45% ascents and declines, rough terrain and unfeasible side-slopes that challenge even the most focused 4x4s. Equally at home off-road as it is on-road, the Cayenne is more than capable of conquering the toughest obstacles.

With a dedicated fleet on standby, you are free to experience this challenging course as a passenger, as part of any driving experience at no additional cost.

To ensure availability, please mention at the time of booking or speak to your Porsche Driving Consultant on the day.

Porsche Human Performance

14 Porsche Human Performance recognises that the most important component of any vehicle is the driver.

Our facility includes a sports science laboratory fully equipped with state-of-the-art technology from Matrix and Wattbike. We offer a full range of physiological testing to provide you with a greater understanding of your health and driving-specific fitness levels. Advice, exercise and nutritional plans can then be prescribed to provide structure and motivation to achieve your individual goals.

A range of services have been developed for Porsche Driving Experience guests including:

- Training & Nutrition Consultation – £95
- Wellness Check – £95
- Postural Screen – £95
- Sports Massage – £50 per hour

Other sports performance services are also available.

Porsche Ice Experience

21

For many, winter is a time of calm and contemplation. However, at the Porsche Experience, we see things a little differently – very differently, in fact. Tackling drifting, slaloming and braking skills. Varied training contents in specially prepared sections and handling tracks. In different Porsche models.

There are no limits to the possibilities. An intensive experience on snow and ice – from one second to the next. Ice Experience, Ice Force, Ice Force Pro and Ice Cup – the training special for motorsport enthusiasts.

Under professional guidance and with their different focuses and objectives, the cumulative winter programmes encourage each of the Porsche drivers to push their boundaries. And exceed them. Get ready for an extraordinary adventure – packed with adrenaline and the sheer joy of driving at the limit. Enjoy the indescribable feeling of Porsche performance in its purest form.
