20 Years Porsche Tequipment
Accessories for your Cayenne

SPORT PLUS mode retrofit

An established part of our programme for 20 years: driving pleasure retrofitted.

A Porsche stands for enjoyment at the wheel, sports car emotions, unmistakable design and, of course, impressive performance. As well as your idea of how this should be expressed. Visually, tangibly and audibly. In short: how it can best fit in with you and your activities – 365 days a year.

This is what Porsche Tequipment has been offering for 20 years with its high-quality

products. Helping to turn a sports car into a sports car that is specifically adapted to your life. Whatever your plans.

Right from the start, Porsche Tequipment products have to meet the same standards as our vehicles: developed, tested and inspected in Weissach. By the same Porsche engineers and designers responsible for creating each model.

Conceived with the complete vehicle in mind and tailored to your particular Porsche. The result: a range of exceptional products with which you can refine your Porsche to suit your own individual requirements. Fitted after delivery. With no fuss. And, above all, with typical Porsche quality.

With your Porsche, you've already made your dream come true. Now it's time to live it. You will find the relevant accessories from Porsche Tequipment on the following pages.

SPORT PLUS mode retrofit¹

Why not enhance the dynamics at the push of a button? The SPORT PLUS button can be activated at any time for an even sportier set-up of the engine and suspension, including throttle response as well as Porsche Stability Management

(PSM) and Porsche Traction Management (PTM) systems. Also includes Performance Start function and performance display in PCM and the instrument cluster.

¹ Only in conjunction with PCM. Does not include Sport Chrono timer.

Stainless steel skid plate (front)

Stainless steel skid plate (front)

Striking at first glance. Even more refined upon closer inspection. With the front skid plate in stainless steel, your Cayenne cuts a stylish figure, both on the road and when parked outside your door. The colour of the

skid plate has been carefully selected to complement the metallic features of the Cayenne and installation does not affect the vehicle's approach angle. Recommended in conjunction with the stainless steel skid plate (rear).

Stainless steel skid plate (rear)

Stainless steel skid plate (rear)

Consistently sporty. The rear skid plate in stainless steel adds a striking touch to the rear of your Cayenne. Together with the optional stainless steel skid plate (front), it helps to show your Cayenne in the best possible light.

Fuel consumption in l/100 km urban 15.9–7.6 · extra urban 8.9–6.0 · combined 11.5–6.6; CO₂ emissions in g/km 267–173
