Porsche Tequipment – Accessories for Individual Design

Transport with System

Sporty: up to three bicycle holders can be mounted on the Cayenne

It's much more than pure driving pleasure that attracts people to the Porsche Cayenne. Its outstanding driving dynamics and generous space make the model the perfect companion for sport and free-time activities. And not just for transporting masses of luggage on a family holiday.

The Porsche Tequipment offers a wide range of intelligent transport systems. The bike holder with lock function, for example, can transport all current bicycle models (including children's bicycles) with wheel diameters of up to 85 millimetres. Up to three bicycle holders can be mounted next to each other on the Cayenne.

The luggage compartment management system for the boot includes a rail system in the floor with integrated, moveable elements for securing the

Protection: the boot tub is waterproof and acid-resistant

load. As an alternative to this fixture, Porsche also offers the full-surface separating grid behind the rear seats acting as an effective steel restraint system. It offers protection for passengers and is enhanced with the multi-purpose grid which can be set in three different positions to separate the luggage compartment. The ice box with 12 volt connection is equipped with a patented fastening system for safe transportation. The floor tub is available in both a flat and a high version. It guarantees precise fit and can be wiped down. The floor tub also protects the floor and side panels of the luggage compartment from soiling and damage.

Effective: the luggage compartment management system and separating grid guarantee improved safety during transportation

Practical: The ice box with 12 volt connection and a volume of 12 litres

Further information about the entire Porsche Tequipment product range and the current Tequipment catalogues are available from your Porsche partner or on the Internet at www.porsche.com. At this address, you can also visit our Porsche Design Driver's Selection online shop, where you will find a range of selected Tequipment products.
