**Porsche Scheduled Maintenance Plan**

## The Porsche Scheduled Maintenance Plan: An ownership experience to match the driving experience.

Now that you have selected your new Porsche, we are sure you will want to give it the finest care. The Porsche Scheduled Maintenance Plan (PSMP) allows you to manage your factory recommended scheduled maintenance services through the convenience of prepayment. Not only will you lock in the cost of your Scheduled Maintenance up front, you will rest easy knowing these services are then performed at no additional charge for the term you choose.

### How does it work?

In establishing scheduled maintenance requirements for Porsche vehicles, our engineers in Weissach determined the checks and service operations necessary to keep your Porsche running in optimal condition. Beginning with Model Year 2018 and later, all new Porsche vehicles will include the first scheduled maintenance as part of the purchase of the vehicle. Porsche encourages reviewing your owner's manual for more information on the specific recommended service intervals. This first service is generally due at Year 1/10,000 miles, but this may vary depending on model. To supplement the included first scheduled maintenance, Porsche offers Porsche Scheduled Maintenance Plans that cover each of these critical items for periods Year 2/20,000 miles to Year 5/50,000 miles, depending upon which term you choose. Once you have selected your term, all you need to do is arrange an appointment with your authorized Porsche dealer at the appropriate time or mileage and charge for your scheduled maintenance when you return to pick up your vehicle.

Which plan is right for you? Some owners keep their Porsche vehicles many years but drive a limited distance, while others travel thousands of miles each year, but perhaps have a limited lease period. To cover such a wide variety of needs there are four different PSMP terms available, as outlined in the chart below. Your Porsche Sales or Service Professional can also help determine which plan best fits your expected usage.
